Report of Independent Public Accountants

The Board of Directors Weeden & Co., L.P.

We have audited the accompanying statement of financial condition of Weeden & Co., L.P. as of December 31, 2011 that is filed pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of Weeden & Co., L.P. as of December 31, 2011, in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the statement of financial condition as a whole. The supplementary information contained in Schedule I required by Rule 17a-5 under the Securities Exchange Act of 1934 is presented for purposes of additional analysis and is not a required part of the financial statement. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the statement of financial condition. The information has been subjected to the auditing procedures applied in the audit of the statement of financial condition and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the statement of financial condition or to the statement of financial condition itself, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the statement of financial condition as a whole.

J. A. Colon L L New York, New York

NOTES TO STATEMENT OF FINANCIAL CONDITION

Note 1 - Organization:

Weeden & Co., L.P. (the "Company"), a Delaware limited partnership, is a registered broker and dealer in securities under the Securities Exchange Act of 1934. The Company is a member of various exchanges and the Financial Industry Regulatory Authority, Inc. ("FINRA"), and Securities Investor Protection Corpor ation ("SIPC"). The Company is registered with the Municipal Securities Rule Making Board ("MSRB"). Weeden Securities Corp. is the sole general partner (the "GP"), and manages and controls the business and affairs of the Company. Weeden Investors, L.P. ("WILP") is the sole limited partner. The Company is an introducing broker for the transactions of its institutional customers, a market-maker in certain securities in the over-the-counter market, conducts a capital markets business which includes advisory services, investment banking and underwriting participation, and also engages in trading activities in fixed income products and listed equities in both domestic and international markets whereby the Company commits its capital in order to facilitate its customers' orders.

The Company has an agreement with another broker-dealer ("clearing broker") to clear transactions, carry customers' accounts on a fully disclosed basis and perform record keeping functions and, consequently, operates under the exemptive provisions of SEC rule 15c3-3(k)(2)(ii).

Note 2 - Significant accounting policies:

Accounting standards define fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Fair value is a market-based measurement that should be determined based on the assumptions market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair value measurements, a fair value hierarchy distinguishes between (1) market participant assumptions developed based on market data obtained from sources independent of the reporting entity (observable inputs) and (2) the reporting entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). Valuation techniques used to measure fair value shall maximize the use of observable inputs and minimize the use of unobservable inputs.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels, as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide information on an ongoing basis.

NOTES TO STATEMENT OF FINANCIAL CONDITION

Note 2 - Significant accounting policies (continued):

Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. If the asset or liability has a specified (contractual) term, a Level 2 input must be observable for substantially the full term of the asset or liability. Level 2 inputs include the following:

- a. Quoted prices for similar assets or liabilities in active markets
- b. Quoted prices for identical or similar assets or liabilities in markets that are not active
- c. Inputs other than quoted prices that are observable for the asset or liability
- d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 inputs are unobservable inputs for the asset or liability. Unobservable inputs are used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk). Unobservable inputs are developed based on the best information available in the circumstances, which might include the reporting entity's own data. However, market participant assumptions cannot be ignored and, accordingly, the reporting entity's own data used to develop unobservable inputs are adjusted if information is reasonably available without undue cost and effort that indicates that market participants would use different assumptions.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs.

The fair value of the Company's investments, including cash segregated under Federal regulations and securities sold, not yet purchased, as of and for the year ended December 31, 2011 were all measured using Level 1 inputs. At December 31, 2011 the Company has securities that management has deemed to be worthless.

The Company records principal transactions in securities and the related revenue and expenses on a trade-date basis.

Commissions and related clearing expenses are recorded on a trade-date basis.

NOTES TO STATEMENT OF FINANCIAL CONDITION

Note 2 - Significant accounting policies (continued):

Investment banking revenues include gains, losses, fees, net of syndicate expenses, arising from securities offerings in which the Company acts as an underwriter or agent. Investment banking revenues also include fees earned from providing merger-and-acquisition and financial restructuring advisory services. Investment banking management fees are recorded on offering date, sales concessions on settlement date, and underwriting fees at the time the underwriting is completed and the income is reasonably determinable. Certain advisory fees are recognized as the services are performed. The Company had no investment banking revenues during 2011.

Securities owned or securities sold, not yet purchased, by the Company are valued at their prevailing market prices based on the last sales price listed on a national securities exchange or the NASDAQ.

For securities whose inputs are based on bid-ask prices, the Company's valuation policies require that fair value be within the bid-ask range. For securities traded in the OTC markets and listed securities for which no sale was reported on the valuation date, such securities are valued at their last reported "bid" price if held long, and last reported "asked" price if sold short. All resulting unrealized gains and losses are reflected in the statement of income.

The Company accounts for costs incurred in connection with the development of software in accordance with guidance on accounting for costs of computer software developed or obtained for internal use. Accordingly, all costs incurred in the preliminary project stage are expensed as incurred, and internal and external costs incurred to develop internal use computer software during the application development stage are capitalized.

Depreciation and amortization for building and leasehold improvements are provided for using the straight line method and accelerated methods over 5 to 39 years. Depreciation for all other capitalized assets is provided for over the estimated useful lives of the related assets, generally five to seven years, using the accelerated double declining balance method.

The statement of financial condition has been prepared in conformity with accounting principles generally accepted in the United States of America which require management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Amounts paid to partners of WILP for salaries are expensed.

No provision is made in the accompanying statement of financial condition for Federal or state income taxes since such liabilities are the responsibility of the individual partners.

NOTES TO STATEMENT OF FINANCIAL CONDITION

Note 2 - Significant accounting policies (concluded):

The Company's U.S. Federal and state income tax returns prior to fiscal year 2008 are closed and management continually evaluates expiring statutes of limitations, audits, proposed settlements, changes in tax law and new authoritative rulings.

The Company has evaluated events and transactions for potential recognition or disclosure through February 27, 2012, which is the date the statement of financial condition was available to be issued.

Note 3 - Cash and cash equivalents:

The Company maintains cash accounts in excess of FDIC and SIPC limits. It has not experienced any losses from such accounts. At December 31, 2011, cash (including cash segregated under Federal regulations) includes money market accounts and money market mutual funds with balances of \$25,473,205. At December 31, 2011, cash and cash equivalents in excess of insured limits amounted to approximately \$24,730,000.

The Company considers all highly liquid investments purchased with original maturities of three months or less to be cash equivalents.

Note 4 - Cash segregated under Federal regulations:

Cash of \$5,272,743 has been segregated in a special reserve bank account for the benefit of customers under rule 15c3-3(e) of the Securities and Exchange Commission.

Note 5 - Receivables from clearing broker:

The clearing and depository operations for the Company's security transactions are provided by one broker who is a member of major securities exchanges. At December 31, 2011, all of the securities owned and the receivable from broker reflected in the statement of financial condition are security positions with and amounts due from this clearing broker.

For financial reporting purposes, amounts due to broker have been offset against amounts due from broker for securities sold, not yet purchased, and other items. The securities serve as collateral for the amount due to the broker. Subject to the clearing agreement between the Company and the clearing broker, the clearing broker has the right to sell or re-pledge this collateral. Additionally, investments in securities and securities sold, not yet purchased, are subject to margin requirements.

The Company has agreed to indemnify its clearing broker for losses that the clearing broker may sustain from the customer accounts introduced by the Company.

NOTES TO STATEMENT OF FINANCIAL CONDITION

Note 5 - Receivables from clearing broker (concluded):

Amounts receivable from and payable to the clearing broker at December 31, 2011 consist of the following:

	<u>Receivable</u>	Payable
Receivable from clearing broker Fees and commissions	\$ 9,097,137 	<u>\$128,666</u>
Totals	\$10,554,27 <u>6</u>	<u>\$128,666</u>

Included in receivable from clearing broker are two cash accounts aggregating \$5,100,000 that have been pledged as collateral to the broker.

Note 6 - Building improvements, furniture, fixtures, equipment, and software:

Building improvements, furniture, fixtures, equipment, and software at cost, consist of the following:

Coffee	0.40.040.050
Software	\$13,012,353
Computers	3,122,359
Building (leasehold) improvements	4,307,120
Equipment	1,395,404
Furnishings	<u>1,264,031</u>
	23,101,267
Less accumulated depreciation and amortization	<u>17,662,251</u>
T-4-1	A - 100 010
Total	<u>\$ 5,439,016</u>

NOTES TO STATEMENT OF FINANCIAL CONDITION

Note 7 - Financial statements with off-balance sheet risk:

The Company can enter into various transactions involving derivatives and other off-balance sheet financial instruments. These financial instruments can include futures, exchange-traded and over-the-counter options, delayed deliveries, and securities purchased and sold on a when-issued basis (when-issued securities). These derivative financial instruments are used to meet the needs of customers and manage market risks and are subject to varying degrees of market and credit risk. Derivative transactions are entered into to economically hedge other positions or transactions.

Futures and when-issued securities provide for the delayed delivery of the underlying instrument. As a writer of options, the Company receives a premium in exchange for giving the counterparty the right to buy or sell the security at a future date at a contracted price. Futures contracts are executed on an exchange, and cash settlement is made on a daily basis for market movements. Accordingly, futures contracts generally do not have credit risk.

The credit risk for forward contracts, options and when-issued securities is limited to the unrealized market valuation gains recorded in the statement of financial condition. Market risk is substantially dependent upon the value of the underlying financial instruments and is affected by market forces such as volatility.

All positions in derivatives are reported in the accompanying statement of financial condition at fair value and any change in fair value is reflected in the statement of income as gain or loss as it occurs. During the year ended December 31, 2011, the Company's derivative activities were not material and the Company held no derivative instruments at December 31, 2011.

The Company sells securities that it does not currently own and therefore is obligated to purchase such securities at a future date. The Company records these obligations in the statement of financial condition at fair values of the related securities, and incurs losses if the fair value of the securities increases subsequent date of the statement of financial condition.

In the normal course of business, the Company's customer activities involve the execution and settlement of various customer securities transactions. These activities may expose the Company to off-balance sheet risk in the event the customer or other broker is unable to fulfill its contracted obligations to deliver cash or securities and the Company has to liquidate the security at a loss.

The Company's customer securities activities are transacted on a delivery vs. payment basis. The Company does not extend margin to its customers.

NOTES TO STATEMENT OF FINANCIAL CONDITION

Note 8 - Related party transactions:

The Company from time to time enters into transfers with WILP and the GP. Interest is not charged on any intercompany or affiliate balances. At December 31, 2011, the amount due to WILP was \$4,356, which is netted in other assets in the accompanying statement of financial condition.

Effective January 1, 2009, WILP formed a new company with Pragma Group Investors LLC ("PGI") called Pragma Weeden Holdings LLC ("PWH"). PWH owns 100% of Pragma Securities LLC ("PS"), which is a broker dealer that provides algorithmic trading software to its customers. Pursuant to an agreement that was effective January 1, 2011, the Company, WILP, PS, PGI and others agreed to amend all previous related agreements. As a result, certain commission, commission-sharing and expense sharing agreements between PS and the Company were modified, and WILP issued 100,000 of its Class C units to PGI.

The Company has a commission-sharing agreement with PS. The agreement provides that PS supply the use of its algorithmic trading software to the Company's customers in exchange for 100% of the net commissions derived from the Company's customers' usage of PS's algorithmic trading system. PS also charges the Company a fee per share for the Company's internal use of the software.

At December 31, 2011, amounts due to PS of \$119,701 resulted from the transactions listed above.

At December 31, 2011, WILP owned 22.08% of The Leuthold Group LLC ("TLG"), a company which provides investment advisory services and sells research materials.

Note 9 - Employee benefit plans:

WILP sponsors a profit-sharing plan (the "Plan"), which covers all employees meeting specific age and service requirements. The Plan provides for WILP or the Company to make discretionary contributions based on a percentage of compensation. The Plan includes a 401(k) provision allowing employee deferrals.

NOTES TO STATEMENT OF FINANCIAL CONDITION

Note 10- Net capital requirement:

As a registered broker-dealer and a member of FINRA, the Company is subject to the Uniform Net Capital Rule 15c3-1 of the Securities and Exchange Commission. The Company computes its net capital under the alternative method. The Company is required to maintain net capital, as defined, of \$1,000,000. Net capital changes from day to day, but at December 31, 2011, the Company had net capital of \$31,599,603, which exceeded the requirement of \$1,000,000 by \$30,599,603.

Note 11- Lease commitments:

The Company occupies office space under several non-cancelable leases which expire between 2014 and 2017. Included in such leases is the lease of the Company's headquarters' office space from WILP. The aggregate minimum rental commitments under these leases are as follows:

Year Ending December 31 ,	Nonrelated <u>Parties</u>	Related <u>Parties</u>	Total
2012 2013 2014 2015 2016 Thereafter	\$ 302,000 348,000 356,000 226,000 230,000 50,000	\$1,950,000 1,950,000 1,950,000 1,950,000	\$ 2,252,000 2,298,000 2,306,000 2,176,000 230,000 50,000
Totals	<u>\$1,512,000</u>	\$7,800,000	\$9,312,000

The leases, in addition to base rentals, provide for rent escalations and other charges which are not reflected in the amounts above.

Note 12- Commitments and contingencies:

On August 18, 2008, the Company entered into a Sales and Use Tax Relief Program Implementing Agreement (the "Agreement") with the Connecticut Development Authority ("CDA"). At that time, the Company intended to acquire property to renovate, expand and equip its office space at its headquarters in Greenwich, CT. The CDA granted the Company a benefit of sales and use tax exemptions in an amount not to exceed \$300,000, over a three year period on tangible personal property acquired in connection with the office renovations. The renovations were completed in 2011 and on August 18, 2011, the tax benefit program concluded.

NOTES TO STATEMENT OF FINANCIAL CONDITION

Note 12- Commitments and contingencies (concluded):

The Agreement states that if the Company relocated its business operations outside of the State of Connecticut within a ten-year period following the date the Company received its first benefit from the CDA, the Company shall be liable for the total amount of the sales and use benefit which actually accrued plus 7.5% of such benefit ("Relocation Payment").

To secure and collateralize the relocation payment, the Company maintains an irrevocable letter of credit equal to the maximum Relocation Payment of \$322,500. In August 2011, the CDA agreed to waive the collateral requirement as defined in the agreement as the Company satisfied the jobs requirement as defined in the Agreement. The letter of credit was subsequently cancelled.

Pursuant to an agreement with The State of Connecticut Department of Economic and Community Development ("ECD"), the Company satisfied certain conditions of a \$1,500,000 loan from the ECD, and the loan was forgiven in April, 2010. The Company is committed to maintain its headquarters in the State of Connecticut for a period of 10 years, or it would be required to return the \$1,500,000 plus a 7.5% penalty.

Note 13- Partners' capital:

At December 31, 2011, partners' capital is comprised of as follows:

Weeden Securities Corp. Weeden Investors, L.P.

\$ 361,391 _35,777,698

Total \$36,139,089

SCHEDULE I - COMPUTATION OF NET CAPITAL UNDER RULE 15c3-1 OF THE SECURITIES AND EXCHANGE COMMISSION DECEMBER 31, 2011

Net capital:	
Total partners' capital	\$ 36,139,089
Add allowable credits:	
Discretionary profit sharing plan	382,269
Discretionary bonus accrual	1,404,399
Total	1,786,668
Deduct nonallowable assets:	
Other assets	733,142
Fixed assets, net	5,439,016
Total	6,172,158
Net capital before haircuts on securities positions	31,753,599
Haircut on securities and other charges	153,996
Net capital	\$ 31,599,603
Computation of basic net capital requirement:	
Minimum net capital required	\$ 1,000,000
Excess of net capital	\$ 30,599,603

There were no material differences existing between the above computation and the computation included in the Company's corresponding unaudited Form X-17A-5 Part IIA filing.

See Report of Independent Public Accountants.
